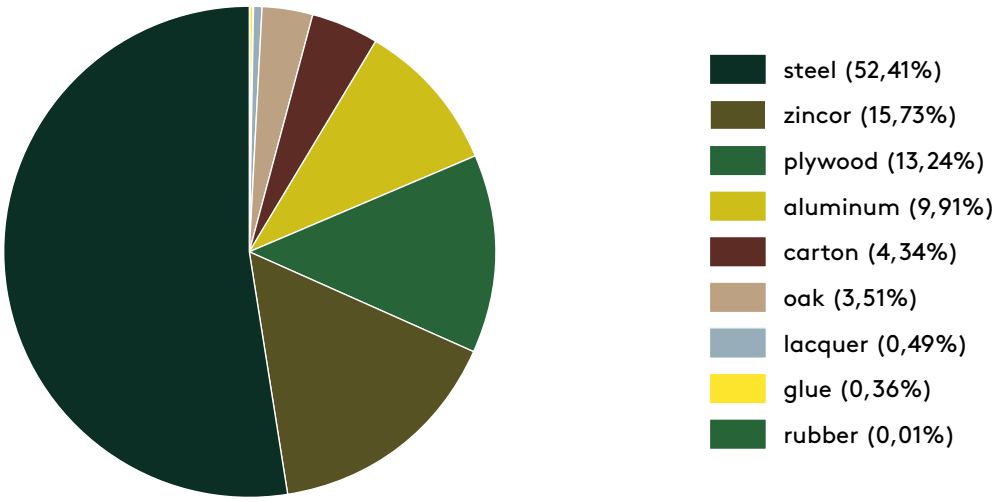
PRODUCT ECO PASSPORT

MATERIALS (PERCENTAGE BY WEIGHT)



Based on: 200 x 40 x 45 cm | 41 kg

CERTIFICATES

STIP

Both oak and walnut (veneer & semi-solid) are STIP certified.

SUSTAINABLE FEATURES

tailoring duramas refurbish repair made in Holland

Veneered products can be repaired, the top can be re-veneered and parts such as the fittings can be replaced. (Semi-)solid tops can be re-sanded and lacquered to a like-new condition. On these tops as well small repairs can be done and the fittings can be replaced. The result will always depend on the degree of the damage.

PACKAGING & LOGISTICS

Our packaging is produced by means of an "on-demand packaging machine". The packaging is exactly tailored for each product, using a minimal amount of packaging material. Moreover in this way the product is optimally packed and well protected during transport. The carriers that collaborate with Arco give, just as Arco, high priority to durability. They aim at reducing the CO2-emissions through, among others, the use of cleaner engines (EURO VI), the effort in reducing fuel consumption, optimizing the loading space and optimal planning.

WARRANTY

All Arco furniture is made with exceptionally high-quality materials and produced with the greatest possible care. If, despite this, something goes wrong, we will of course be happy to resolve the problem professionally. Arco furniture is guaranteed for 5 years. Please visit our website www.arco.nl to see the guarantee conditions.
