PACKAGING & LOGISTICS

Our packaging is produced by means of an "on-demand packaging machine". The packaging is exactly tailored for each product, using a minimal amount of packaging material. Moreover in this way the product is optimally packed and well protected during transport. The carriers that collaborate with Arco give, just as Arco, high priority to durability. They aim at reducing the CO₂-emissions through, among others, the use of cleaner engines (EURO VI), the effort in reducing fuel consumption, optimizing the loading space and optimal planning.

WARRANTY

All Arco furniture is made with exceptionally high-quality materials and produced with the greatest possible care. If, despite this, something goes wrong, we will of course be happy to resolve the problem professionally. Arco furniture is guaranteed for 5 years.
